

Our Manhattan Project For Peace

~ The Domino Principle ~ The Founder ~

Version 1.10

Goal ~ Create a system with tools and networks whereby we could, at will, help a large group of people to think differently . . . and in doing so . . . create greater peace in our own world, in the Middle East and throughout the world.

Do you know the history of the Nobel Peace Prize? Alfred Nobel, the inventor of dynamite became very wealthy and did not want to be known for inventing something that was used greatly in war, in killing people. Mr. Nobel was very intentional in creating the Nobel Peace Prize as a way to help create peace around the world.

Hmmm, what's larger, more destructive than dynamite? Yes . . . the atomic bomb. The Manhattan Project was a group of the greatest scientists of the day, all coming together to create a tipping point for the atomic bomb.

Imagine . . . do the same thing that Mr. Nobel based on the science of the atomic bomb. Imagine . . . specific, rather than "Acts of Kindness" which are great but what about intentional "Acts of Peace" being intentional that each act quickly becomes larger and larger, just like an atomic bomb.

Sounds crazy . . . actually it's not. Actually it's creating a system for "Thinking Differently" ~ Quickly ~ and doing so with the masses.

Can you . . . and I . . . create a small even that builds into a larger event which changes the way we all think?

There are over seven billion people in the world, seven continents and seven major areas which are all connected into people through families. Which of the seven are you connected with?

Imagine . . . if each one of us were to do our part in Thinking Differently in order to bring peace to our own part of the world. Would that create something similar to an atomic reaction or a domino effect throughout the entire world.

7+ Billion People ~ 7 Continents ~ 7 Connection Points

Individuals / Families

- **NGO's / Community**
- **Sports**
- **Medical**
- **Government**
- **Media & The Arts**
- **Education**
- **Business**

Could . . . bringing peace to our own part of the world touch others which touch others and continue a chain reaction until everyone in the world is reached? We are looking to support individuals, families, groups of people and organizations which help to bring peace to their own communities and beyond through learning to Think Differently.

Will you do your part to create a spark, in your own world in which you live? If you do your part, we as an international community will do our part to help get your story out . . . to create a chain of events . . . to create peace throughout the world though thinking differently.

Let's take a look at the seven "Points Of Connection" and determine what we can each do individually to be a "Spark Of Peace" through Thinking Differently. Check the box you believe you could take some type of action.

NOTE: Yes . . . we know there are always examples of each of these different areas which are actually used to bring conflict / wars. As with anything . . . natural laws, the DNA *for* LIFE, as with dynamite, people can use things for good or for bad. How do we help those around us to Think Differently and do so quickly?

1. **NGO's / Community**

NGO's are "Non Government Organizations and include any type of non profit / community based organization. What community based organization(s) are you currently a part of? Where do you see conflict within the organization and how do you believe by helping everyone, including ourselves, to think differently, could we help to reduce that conflict? How can we, within NGO's / community based organizations learn to think differently?

2. **Sports**

What sports do you currently play or participate in? What can we learn from sports to bring peace to our communities? Think about it ... in sports there is competition, there is often contact, sometimes extremecontact, often injury at the hands of an opponent . . . yet after all is said and done, opposing teams shake at the end of a game. Are there natural laws, used in sports, we could use in other areas which would bring peace to our own little part of the world, which could bring peace to the Middle East, which could bring peace to the world? How can we in sports learn to think differently?

3. **Medical**

In the medical world, we seek to identify the physical and mental health challenge / problems being faced and we seek to discover solutions. What can we learn from within the medical community which could be applied to bring peace to the world? How can we in the medical community learn to think differently?

❑ 4. Government

Governments are established for the people and have brought both good and bad to the people being served. What can we do in government to learn to think differently to serve in a more effective manner and bring peace to those we serve? What can we do to partner with the other six “Points of Connection” within the areas we serve to bring greater peace to everyone we are connected with? What ways of thinking could we change which would help those we serve to think differently? How can we in government learn to think differently?

❑ 5. Media & The Arts

Media is not only a distribution channel which influences the entire world but helps to greatly influence the way we all think. The Arts touch people in a way that none of the other six “Points of Connection” touch people in the mind, heart and even soul. How do we in the media and the arts learn to think differently?

❑ 6. Education

Education plays such an important role in helping people learn how to think in certain ways from a very young age. Just like everyone of the other six “Points of Connection” there are things taught consciously and subconsciously in education which are both good and bad. How do we in education learn to think differently?

❑ 7. Business

Businesses create the economic engine which fuels the world with jobs which provide financially, meaning and a way for people to use their 7 T's ~ Time ~ Talents ~ Treasure ~ Trust ~ Truth ~ Temple and Thought to bring being to their lives and the lives of others. Business benefits greatly from the other 6 “Points of Connection” and brings benefits to each of the other 6 areas as well. How do we in business learn to think differently?

Everyone of the 7+ billion people are affected in how we think by the 7 “Points of Connection.” Each of the 7 “Points of Connections” benefit from peace and may contribute to peace or contribute to conflict / war.

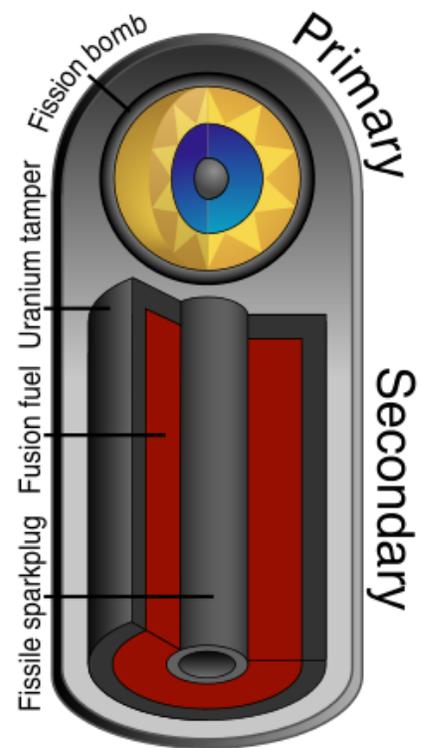

Why do we study an atomic bomb? We study it to learn of the natural laws which produce a predictable result. What if . . . we could do the same thing for the human mind, to the way we all think?

We think . . . it’s worth a try. Are you in?

https://en.wikipedia.org/wiki/Nuclear_weapon

A **nuclear weapon** is an explosive device that derives its destructive force from **nuclear** reactions, either fission (fission **bomb**) or a combination of fission and fusion (thermonuclear **weapon**). Both reactions release large quantities of energy from relatively small amounts of matter.

A **thermonuclear weapon** is a second generation [nuclear weapon design](#) using a secondary nuclear fusion stage consisting of fusion fuel, implosion tamper and sparkplug which is bombarded by the energy released by the detonation of a primary [fission](#) bomb within, compressing the fuel material ([tritium](#), [deuterium](#) or [lithium deuteride](#)) and causing a [fusion](#) reaction. Some advanced designs use [fast neutrons](#) produced by this second stage to ignite a third [fast fission](#) or fusion stage. The fission bomb and fusion fuel are placed near each other in a special radiation-reflecting container called a radiation case that is designed to contain x-rays for as long as possible. The result is greatly increased explosive power when compared to single-stage fission weapons. The device is colloquially referred to as a **hydrogen bomb** or, an **H-bomb**, because it employs the fusion of [isotopes](#) of [hydrogen](#).^[1]

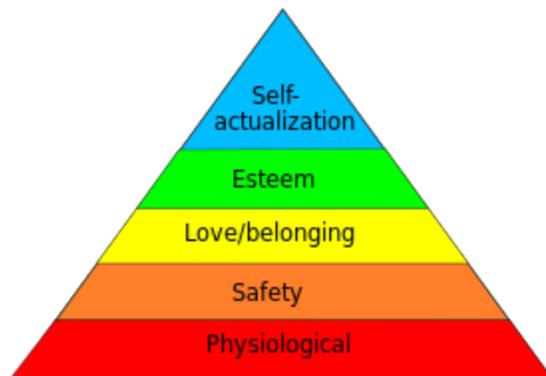

At the age of 9 years old Jonathan discovered the domino principle which he understood that one good choice could lead to many other good things happening and one bad choice could lead to a series of really bad things happening.

Now . . . 18 years later . . . there's discussion about how to help accelerate this and magnify this greatly to create MASSIVE life changing events, through learning to think in a very different way and do so quickly. Hmmmm, what are the possibility of when we succeed in accomplishing this?

Just like in an atomic bomb, the elements, must all respond in a certain way to produce the results. What's complicated about human beings is that we don't all respond in a certain way . . . or do we? It would seem, on the surface that human beings of different cultures respond in very different ways . . . but if we . . . take a look . . . from a higher vantage point, from the BIG Picture, is this really true?

Hmmmmm, maybe not. With Maslow's hierarchy of needs it would seem that he discovered something that is true for all human beings.

My Thoughts . . .

Life Masteries Institute and Legacy Partners DNA for PEOPLE or Personality Masteries seems to have discover how to quickly identify someone's personality in seconds and how each of those 4, 16, 64, 256 or 65,536 possible combination of personalities causes someone to think in a very different way for very different motivations.

What's interesting about Personality Masteries is that what causes one personality pain will actually cause another personality pleasure. Is it possible to learn how to create peace through the deep understanding of Personality Masteries and the science of deeply understanding one's

personality. There is a fun online survey which helps to quickly identify someone's personality. Once we understand our own personality it helps us to have peace with ourselves which is a great first step to have peace with others.

Imagine . . . taking the best “ways of thinking” from each of the seven “Points of Connection” and bringing them all together to create a atomic bomb for changing thinking of sorts.

It’s interesting . . . where often . . . those who are experts in a specific area of the 7 “Points Of Connection” may judge other points while not fully realizing that others will judge us as well . . . without fully understanding the very specific and detailed nuances which are unique in many ways . . . but similar in others . . . between all 7 points.

❑ 7. Business

Ray Kroc, the founder of McDonald's has impacted billions of people worldwide. This is a great example and opportunity to people to discuss the different aspects of what he did, the pros and cons, the ethical decisions he made and the many different nuances of the movie, the story. If we find ourselves judging Mr. Kroc, find someone to watch the movie who is in business and may have the ability to share insight, perspective and a way of thinking that we may not see on our own. If you are connected strongly to one of the other 6 "Points Of Connection" what movie, from your point of connection might bring up similar questions and thoughts . . . which may be very much the same . . . or very different.

If you have watched the movie "The Founder" you are free to read on. If not . . . please do not read on until you watch it. This is very important!

Hmmm . . . did you [go through this worksheet](#) on The Founder yet? If not, it would be good to go through this white paper, in detail, before you move forward.

My Thoughts On The Movie Area . . .

Imagine . . . having a vision which was so large, so powerful . . . that we all become deltas . . . agents of change . . . where we learn how to use our 7 “Points Of Connection” to bring a new way of thinking about conflict to each of these 7 areas.

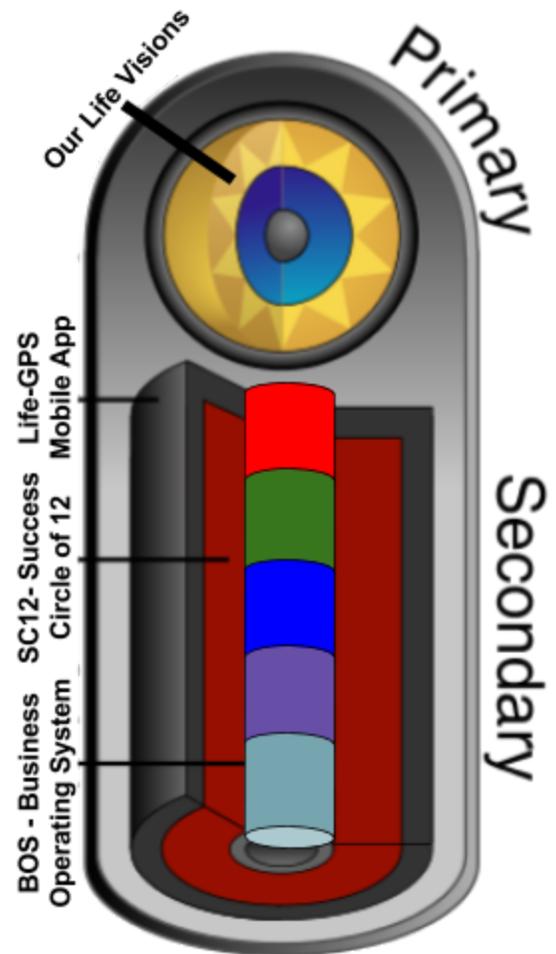

Do you know where many if not most of the very wealthy, affluent and influential people have gained their influence and affluence from?

If you said they came from within an industry within a profession then you would be right.

They were like Ray Kroc . . . deep within their own industry and “they discovered something that was very different. When Tom Kunz saw The 5/30 Grid he was like Ray Kroc and realized what we had when he said . . . “You have the holy grail to business.”

What if . . . through a “Manhattan Project” so to speak, we were to come together and figure out how to find the key individual, the key owner, in every industry and then help them to take the above model, apply it to their own business, fine tune it and then take it out to everyone within their industry? Hmmmm, that’s interesting.

If we were to do that . . . do you think of any industry in particular where they work with a lot of different industries and could be conduits, distribution channels to making this happen?

Hmmm, what comes to mind might be CPA's, Printers, Bankers, Technology Providers, Churches ~ Community based organizations and . . . who else?

Hmmm, what did they do at the Manhattan Project which created a tipping point moment which accelerated the development of the atomic bomb?

Q&A

Q1. What are the secrets to help an individual to quickly think differently AND then create a ripple?

Answer

Great question. There is a very powerful white paper titled "Thinking Differently" which looks at "Thinking Differently" in a very different and innovative way. We would encourage reading that white paper.

Atomic Ripple Reaction

Step 1 ~ Identify the "One Action" to take.
 One Action I Need To Take: _____

Step 2 ~ 1 Other person steps up to dance
 Name of 1st Person: _____

Step 3 ~ Draw in 2 others to join your dance
 Name of 2nd Person: _____
 Name of 3rd Person: _____

Step 4 ~ Ripple from 3 to 6
 _____, _____, _____
 _____, _____, _____

Step 5 ~ Ripple from 6 to 12
 Name Of SC12 Group: _____

Step 6 ~ Move to 2nd generation SC12 + 144
 How do I help the 12 SEE what I see?

Step 7 ~ Move to 3rd generation SC12 + 1,872
 How do we do it again and again?

Step 8 ~ 4th generation SC12 + 271,440
 Hmm . . . this will take some work

Step 9 ~ 5th generation SC12 + 39,358,800
 My thoughts are . . .

Step 10 ~ 5th generation SC12 + 5,707,026,000 . . . Ok . . . this is just crazy exciting to think about this.
