Engineered CLARITY

Purpose ~ PEOPLE ~ BUSINESS ~ LIFE

To assist each individual reading this white paper to gain clarity in one major area. Then, help 2 other people do the same by joining the **Engineered CLARITY** movement.

List one thing you may not be CLEAR on PEOPLE ~ BUSINESS ~ LIFE:

If you had CLARITY on this . . . how would that affect your life?

. . . use your hard bound journal to flesh out the details of both of these questions.

Foundation

The first thing to gain CLARITY on . . . is an understanding . . . that any problem we have, in any area, is connected to how we think. If we were to learn to Think Differently . . . then would it be possible to gain CLARITY of anything, in any area of life?

Albert Einstein

"You can never solve a problem on the level on which it was created."

Albert Einstein

Engineered CLARITY is a precise process which takes participants out of the "Habit World" into the "Creative World" to gain power and insights. To learn to Think Differently and do so quickly.

Engineered CLARITY has taken decades to discover and develop and many worldwide thought leaders have devoted much of their lives to personally gain CLARITY. There is an amazing group of women and men who have collaborated to design **Engineered CLARITY**.

In most situations it's not that we don't have the right answer to discover CLARITY it's that we don't know the right **questions**.

Even when we do ask the right questions we often are not practicing deep **listening**, which prevents us from hearing what we need to hear. In order to learn to Think Differently, our hearing is the first step to CLARITY.

Often we're surrounded by others who tend to think in similar ways as we think and/or by people who will not tell us what they are really thinking. We need to be around others who "Think Differently" than us and also are on far higher frequencies than we are. **WARNING:** When this happens we will hear things we probably do not want to hear, but if we listen well, we'll start to **SEE** things we've never seen before.

When we SEE things differently, we start to **THINK** differently, which helps us to gain CLARITY. Thinking differently is the second step to gain CLARITY. As we learn to THINK differently we start to see that we are far more **CAPABLE** than we ever imagined. We become clear as to where we lack **CAPABILITIES** and how we can connect with others to **LEVERAGE** their capabilities with our own for the mutual benefit of all.

As we connect, we bring together forces of energy, passion, insights and wisdom that we never dreamed we would be capable of to **DO** things. However there is do and there is **DO**. Until we learn to **INTERNALIZE** things and then connect them to our **Life Vision** or as some might say "Their Why" we never really DO as we could. This gives us a deep sense that we're missing something, because we are.

Most of us want to see greater success in most areas of our lives, but knowing where and how to start can be a hard thing. Also, we all have blind spots, those areas in our lives where we think we're doing great, we have it handled, we think we're clear, but often are not. These are often the hardest to address.

We can't know what we don't know, unless of course we're great students of learning. Great students, it would seem, always discover gaps in clarity everywhere they go with everyone they meet.

What is one area of life do you believe you are most CLEAR in?

Learning to have CLARITY is hard, in many ways and so easy in others.

If you work with an advisor who is certified in **Engineered** CLARITY, they will assist you in quickly learning how to be clear in any area of your life.

What if I don't feel I have time for CLARITY?

Answer

Not having CLARITY costs us so much time, it's crazy! If you don't have a great deal of free or open time that shows you that you lack CLARITY a great deal in one or many areas of life.

Others who have been through the process share . . .

"I have never been through anything like this in my life. It's worth ten times what I invested financially."

By understanding "**Engineered** CLARITY" you will start your journey on finding CLARITY on not only those things which you know you do not have CLARITY on, but also those things which are really really important to be clear on, but maybe we do not even know that we are unclear.
