- Employees

- Vendors
- Clients
- Donors
- Volunteers
- Members
- Family
- Friends . . .
sure why not?
- Other:
- _____

Through the **Engineered** CLARITY process, we will seek to make this so easy, so that you can draw something from this short white paper that you can immediately use today. Share this with everyone you know, because when you think about it . . . regardless of our specific goals, from the big picture, we all want to empower people to take ownership of their own success in all areas of life.

Visit the <https://clarity.dnaforsuccess.com> website for answers to PEOPLE ~ BUSINESS - LIFE.

Purpose

To assist each individual reading this white paper to gain clarity in taking personal ownership in our own lives and then help 2 other people do the same by joining the **Engineered CLARITY** movement.

List all uses for applying what you learn from this white paper:

List one thing you feel that you or others around you are weak in taking personal ownership:

If you had CLARITY on this . . . how would that affect your business, organization and/or life?

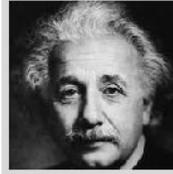

. . . use your hard bound journal to flesh out the details of both of these questions.

Think about this . . . when we think . . . ANYTHING is someone else's responsibility we give up control of that area of our lives and give it to the individual, organization and/or group. When we take ownership, we gain confidence, learn, grow, become curious . . . and really AWAKENED to our true potential. We start to live in the creative world again.

Foundation

The first thing to gain CLARITY on . . . is an understanding . . . that any problem we have, in any area, is connected to how we think. If we were to learn to Think Differently . . . then would it be possible to gain CLARITY and help others to do so as well?

Albert Einstein

*"You can never solve a problem on the level on which it was created."
Albert Einstein*

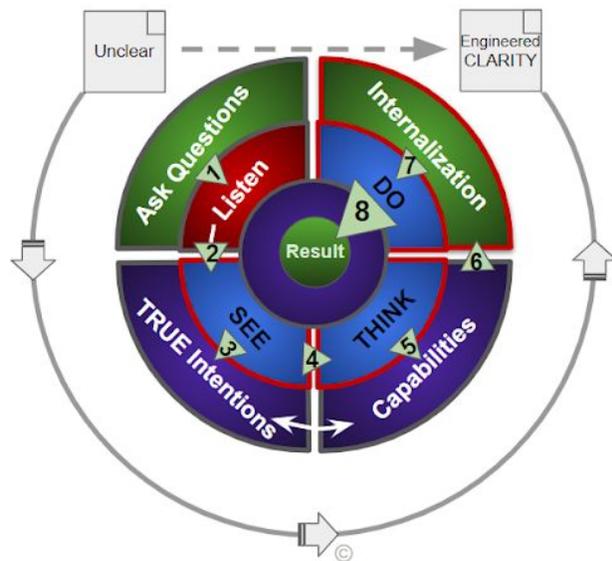

Engineered CLARITY is a precise process which takes participants out of the “Habit World” into the “Creative World” to gain power and insights. To learn to Think Differently and do so quickly.

Engineered CLARITY has taken decades to discover and develop and many worldwide thought leaders have devoted much of their lives to personally gain CLARITY. There is an amazing group of women and men who have collaborated to design **Engineered CLARITY**.

In most situations it's not that we don't have the right answer to discovering CLARITY; it's that we don't know the right **questions**.

Even when we do ask the right questions, we often are not practicing deep **listening**, which prevents us from hearing what we need to hear. In order to learn to Think Differently, our hearing is the first step to CLARITY.

Engineered CLARITY

Learning to help others take ownership of things may be one of the hardest things we will do. Ask any parent how difficult it is to teach one's children to take personal ownership for their own choices, much less the choices of others which we will learn how to do in Dimensional & Quantum Thinking.

The Simple Version . . .

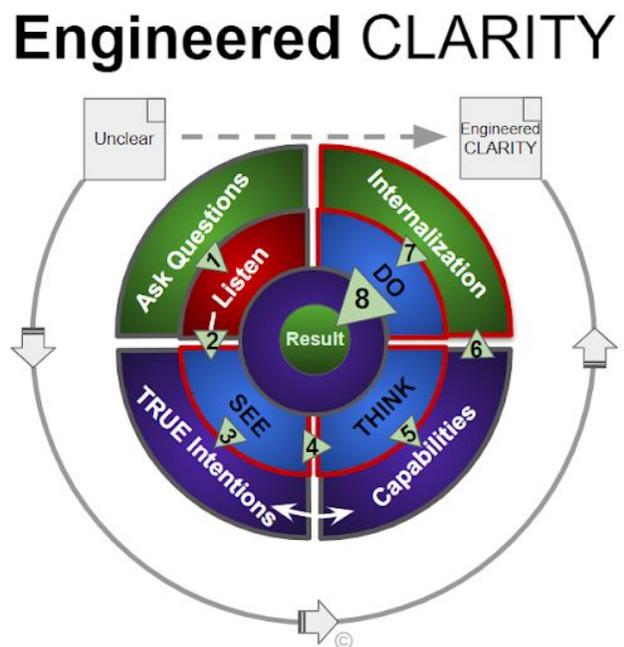

Step Up: I would like myself or someone else to take personal ownership of:

If you have taken personal ownership of something in your life, that you would like someone else to take ownership of . . . we'll need to use the **Engineered CLARITY** process to reverse engineer how we have learned to think. This is no small feat to do. We have acquired throughout our entire life, a great deal of unconscious competence.

- Unconscious Competence is knowledge and experience that we have and don't even know we have. If we do not know we have something, then it's impossible to build it into others and/or systems. We call this "The Warm Belly Rub" principle.

Step 1: Questions ~ If you are seeking to EMPOWER Ownership in someone else, we will need to ask questions which bring out the unconscious competence inside of us by asking certain questions. If you have an ARRT Mentor, this will be helpful. If you have an **ActionVISION** plan and coach, they have additional tools and decades of experience in helping people do this very thing. Make a list of all questions which should be asked.

Step 2: Listen ~ Quantum

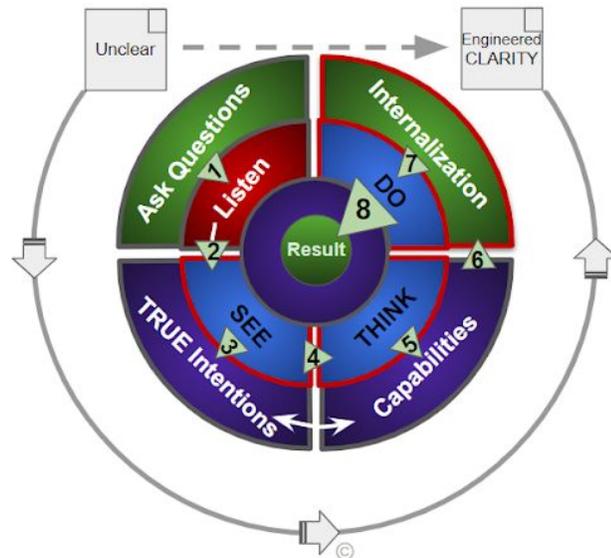

Listening helps us to listen far beyond the words being shared by ourselves and others. We listen at a subconscious level. Listen & See ~ <https://www.youtube.com/watch?v=cRXNNqNfQBs>

Step 3: SEE ~ We often think when we Listen that we hear and see what is being said but we miss the energy of what is shared. This energy is hard to explain, hard to hear and see. It's almost magical or mystical in nature as it goes

deep into the very being of the individual when done properly. When we do this properly, at the deepest levels we see people's TRUE Intentions.

Step 4: THINK ~ We often rush into judgement or thought as we race through the listen / see steps which causes us to not have the ability to do Quantum Thinking which is required if we want to empower someone else, especially to take ownership of something that we or others have done for maybe years or even decades.

Engineered CLARITY

Step 5: Capabilities ~ When we have completed the first four steps properly we have new capabilities to **EMPOWER** Ownership. With Quantum Thinking, there are new worlds and new dimensions which will change everything for everyone.

Step 6: Internalization ~ In the Q&AS we'll go into this as it's a separate model in and of itself. Crazy cool when we see the science of things.

Step 7: DO ~ Seems simple . . . but it's not. More in the Q&A.

Step 8: Results ~ Also seems simple . . . but it's not. More in the Q&A.
